

## CLUB RECORDS

This booklet includes the Club Records of the Collingwood Harriers Athletic Club. We have published it in an effort to help us keep a more up to date record of changes to these performances. Sometimes records are missed because we simply don't realise that a record has been surpassed or we are unaware of the exact age of a competitor on the actual day of competition.

We think that the records from Under 14 to Open are accurate. If you think you have surpassed a listed performance please let us know (showing details listed later)

The records for overage performances (i.e. 30-34, 35-39, 40-44etc) have been compiled after a painstaking search of available results. Their accuracy is not guaranteed! We again would like to hear from anyone who thinks they have a performance that should be included.

To claim a record the following criteria have to be met:

\* you must be in the relevant age group on the day of the performance. N.B. It is possible to compete in the U/14 grade even if you are already 14....but you cannot claim an U/14 record once you have turned 14!

\*you must be competing for Collingwood Harriers in Interclub, State Championships, National Championships or International Meetings. ( For National and International Championships you will have been selected through your performance as a Collingwood Harrier.)

Official trial meet performances will be considered. Particularly in the overage sections performances in official Masters meets will be considered.

\*in the past, school meeting performances have not been considered. You are invited to submit any performance for consideration.

We have printed an application form in this booklet for you to use when submitting a record for ratification. The form does not have to be used. You can simply write the details on a piece of paper and submit it to your team manager or any member of the committee.

The committee will attempt to recognise records even if you don't submit your performance for ratification, but your notification of your effort will help us keep an accurate and up to date list of performances.

Overage athletes are particularly encouraged to submit their performances, as we would love to fill up the many spaces evident in those lists.

N.B. For sprint events and horizontal jumps an effort **should** be made to record the wind reading at the time. (direction and force if possible)

For throwing events, the weight of the implement **should** be included.
